Mahoning County Public Health and Youngstown City Health District have recently completed their Community Health Improvement Plan, in collaboration with the Vibrant Valley Health Equity Initiative and local partners. This Plan will guide community health efforts over the next three years. From 1-7pm on February 9 we will host:

**An Open House:** We will share our priorities and strategies for community health improvement and ways you can get involved.

**A Resource Fair:** Learn more about local programs, existing collaborations, and community-based organizations working to address health inequities.

*If you're interested in having a table at the resource fair, fill out [this form](#).*

**RSVP now to hold  
your spot!**
